← Back **Operations Security & Physical and Environmental Security Quiz**
Graded Assignment • 30 min

Due Mar 18, 11:59 PM CET

1. The operations security team handles system maintenance tasks. 1 point

- (●) True
- ( ) False

2. The operations security team is responsible for developing security policies and implementing them. 1 point

- (●) False
- ( ) True

3. The operations security team should have a continuity of operations plan. 1 point

- (●) True
- ( ) False

4. The act of assigning tasks to different personnel. 1 point

- ( ) Information sharing
- (●) Separation of duties
- ( ) Clean desk policy
- ( ) Need to know

5. Separation of duties prevents one person from having total control of security measures. 1 point

- (●) True
- ( ) False

6. Audit and monitoring functions allow for the identification of security events. 1 point

- ( ) False
- (●) True

7. Examples of threats to the physical environment include: 1 point

- ( ) Sabotage
- ( ) Emergencies
- ( ) Service interruptions
- (●) All of the above

8. Consideration of things like locks and security guards fall outside the physical environment domain. 1 point

- (●) False
- ( ) True

9. Process used to protect unclassified information that can be used by an adversary. 1 point

- ( ) Data security
- ( ) Network security
- ( ) Physical security
- (●) Operations security

10. Information that can be obtained freely, without breaking the law. 1 point

- ( ) Private source
- ( ) Closed source
- (●) Open source
- ( ) Back channel

11. Anyone who can harm people, resources or a mission. 1 point

- ( ) Evil
- ( ) Ally
- ( ) Teammate
- (●) Adversary

12. Which is not a step in the operations security process? 1 point

- ( ) Identify critical information
- (●) Analyze enemy intentions
- ( ) Analyze vulnerabilities
- ( ) Analyze threats

13. Measures taken to protect systems, buildings, and infrastructure from threats in their physical environment. 1 point

- ( ) Network security
- (●) Physical and environmental security
- ( ) Client security
- ( ) Operations security

14. Physical access controls do not need to address locations of system wiring. 1 point

- ( ) True
- (●) False

15. Physical access controls restrict the entry and exit of personnel from an area. 1 point

- ( ) False
- (●) True

16. What are the three routes possible for data interception, according to NIST? 1 point

- ( ) Direct observation; transmission interception; psychometric interception
- ( ) Direct observation, rejected interception; psychometric interception
- (●) Direct observation; transmission interception; electromagnetic interception
- ( ) Direct observation; reception interception; electromagnetic interception
