Due Apr 1, 11:59 PM CEST

1. **A cloud environment has several advantages over a physical environment and these benefits become available to companies once they have migrated to the cloud. One of these benefits is referred to as High Availability.** 1 point

What does High Availability provide?

- (●) Your cloud-based applications can provide continuous user experience with no apparent downtime even when things go wrong.
- ( ) Applications and data can be deployed to regional datacenters around the globe.
- ( ) You can deploy your applications with the confidence that comes from knowing that your data is safe in the event of a disaster.
- ( ) Cloud-based resources can be deployed and configured quickly as your requirements change.

2. **In Cloud computing, there are two different types of expenses that should be considered, Capital Expenditure (CapEx) and Operational Expenditure (OpEx).** 1 point

Which of these provides for the no upfront spending of money and a pay-as-you-go service?

- (●) Operational Expenditure (OpEx)
- ( ) Capital Expenditure (CapEx)

3. **The Infrastructure as a Service (IaaS) is the most flexible category of cloud services. It aims to give you complete control over the hardware that runs your application. Instead of buying hardware, with IaaS, you rent it.** 1 point

Which of the following are features of IaaS?

Select all options that apply.

- [x] No CapEx
- [x] Management
- [ ] Platform limitations
- [x] Flexibility

4. **Which of the following are features of Management groups?** 1 point

Select all options that apply.

- [x] A management group tree can support up to six levels of depth.
- [ ] Each management group and subscription can have multiple parents.
- [x] 10,000 management groups can be supported in a single directory.
- [x] Each management group can have many children.

5. Azure provides a feature that allows an organization to deploy, manage, and monitor all their resources as a group, rather than individually managing them. What is this feature referred to as? 1 point

- (●) Resource Manager
- ( ) Resource Groups

6. **Is the following statement true or false?** 1 point

An Azure account can have multiple subscriptions.

- (●) True
- ( ) False
